Re: Underwood Mold Company's California Proposition 65 Declaration

Dear Valued Customers,

In an effort to be in compliance with our ISO quality management requirements for Risk Assessments and Opportunities; Underwood has taken steps to verify that the products manufactured by us, for you do not intentionally contain any chemicals which are listed on California's Safe Drinking Water & Toxic Enforcement Act of 1986. This Act commonly known as Proposition 65 (Prop 65), establishes a list of chemicals which the state of California's risk assessment process has determined to present a risk of cancer, birth defects or other reproductive harm.

The Proposition 65 chemical list can be found at:
<https://oehha.ca.gov/media/downloads/proposition-65//p65list102618.pdf>

Please note that we will continue to monitor the Proposition 65 regulations for any new chemicals and provide our customers with the necessary certifications and data upon request or provide full disclosure of any products that may contain chemicals found on the Prop 65 list. In any event you the customer will have the opportunity to decide on an alternate resin.

Sincerely yours,

LaRussia Yellock
Quality Manager
